

## ENVIRONMENTAL STATEMENT

ALASKAN ACCESS CONTROL are committed to the highest standards, professionalism and back up support for all your needs.

We can install, service and repair any make of door, window or associated equipment ensuring an effective solution while delivering improvements with a positive and helpful approach

As professionals with the necessary product and market know-how, we are proud to be an approved installer for CAME Automatic Doors

CAME entrances and automatic doors offer an array of benefits, both inside and outside the sites they are fitted to: they are safe, practical, elegant, and hygienic, they control access, encourage people to enter and, when fitted to air conditioned rooms, they optimise energy consumption.

CAME Doors and systems are manufactured using the latest zero carbon process to ensure that your 2020 emissions targets are met and therefore meeting environmental management policy criteria within your organisation

We constantly measure and take action to reduce the carbon footprint of our business activities to meet our published objectives and targets.

- 1 Manage waste generated from our business operations according to the principles of reduction, re-use and recycling.
- 2 Manage our business operations to prevent pollution.
- 3 Give due consideration to environmental issues and energy performance in the acquisition, design, refurbishment, location and use of buildings.
- 4 Ensure environmental, including climate change, criteria are taken into account in the procurement of goods and services.
- 5 Comply as a minimum with all relevant environmental legislation as well as other environmental requirements to which the firm subscribes.
